## GRAMMAR TAGS

Specification (1)	Specification (2)	Tag denomination	DESCRIPTION	TAGSPAN	EXAMPLES	SOURCE (R=research; U= users; C=CEFR; T=text analysis)
word order	word order in main clause	G_Wo_womaincl	<p>This tag is used if an error occurs in a main clause in the following cases:</p> <p>a) verb in the wrong position b) wrong order of syntactical items such as attribute, subject, object.</p> <p>In some cases, both the position of the verb AND the position of subject, object etc. are wrong. No differentiation is made in this case. The tag also applies to word order errors in questions and exclamations.</p> <p>LANGUAGE-SPECIFIC REMARKS GER: includes errors in the use of "zu" (only wrong position, not missing!) CZE: includes errors in the use of "se"/"si" (only wrong position, not missing!)</p> <p>RELATED TAGS If a participle, auxiliary, or copula is in the wrong position, it is tagged as G_Verb_compl_Pos.</p>	wrong clause including punctuation mark	<p>a) *[Včera učil jsem se česky.], *[Vielleicht du könntest mir bei meine Wohnungssuche helfen.], *[Sollst du Wasser und Bikini mitbringen.]; *[Per trovarlo ti vorrei aiutare.] b) *[Známe film český.], *[Učil se jsem česky.], *[Könntest du bitte mich anrufen?], *[Könntest Du bitte mir hilfen bei der Wohnungssuche?]; *[Mia famiglia sta anche bene.], *[Vorrei andare a ti trovare.]</p>	R/T/U
word order	word order in subordinate clause	G_Wo_wosubcl	<p>This tag is used if an error occurs in a subordinate clause in the following cases:</p> <p>a) verb in the wrong position b) wrong order of syntactical items such as attribute, subject, object.</p> <p>In some cases, both the position of the verb AND the position of subject, object etc. are wrong. No differentiation is made in this case. The tag also applies to word order errors in questions and exclamations.</p>	wrong clause including punctuation mark	<p>a) První je těžký znát, [co učít se.] *Ich wollte wissen, [welche Sprache wird in der Familie gesprochen.] *[wenn haben Sie Zeit,] dann bitte sagen Sie mir. *Gerne würde ich auch wissen [welche Aufenthaltsformalitäten verlangen Sie von mir?] b) Maminka myslí, [že musí pracovat moc pěkně pro lepší budoucnost.] *Ich habe nicht verstanden, [von welche fährt der Zug Bahnhof.]</p>	R/T/U
negation	general negation error	G_Neg_neggen_Pos G_Neg_neggen_O G_Neg_neggen_Ch G_Neg_neggen_Ad	<p>This tag is used in case of</p> <p>a) wrong position of negation expressions (<b>G_Neg_neggen_Pos</b>) b) missing part of negation (<b>G_Neg_neggen_O</b>) c) wrong use of negation words (e.g., GER: nicht, nein, kein; ITA: no, non; CZE: ne, žádný (<b>G_Neg_neggen_Ch</b>)) d) redundant/wrongly added negation word (<b>G_Neg_neggen_Ad</b>)</p>	1 token	<p>a) *[mám ne] kávu, *[půjdu neráno], *Ich habe Hunger [keinen]; *Io credo [non]. b) *On [ne] velký; • [Io mangio nè carne nè pesce] {Io non mangio né carne né pesce}; *[Luca non va a scuola perché ne ha voglia]; *[Non è né chiaro scuro] {Non è né chiaro né scuro}. c) *Bohužel, nemám [ne] čas; *Ich habe [nicht] Zeit. *Er wird dort arbeiten [nein]; *[Non], viene più tardi. d) *Man kann nicht auf solchen grössen Teil seiner Persönlichkeit zu verzichten ohne seine psychische Gesundheit [nicht] zu schaden</p>	R
negation	double negation	G_Neg_negdoub	<p>This is a single-language tag that is only applied for CZECH. In Czech, all negated pronouns require a negated verb form. This tag refers to the missing negation particle "ne".</p>	1 token (missing part of double negation)	<p>*[mám] žádný čas {nemám žádný čas} *nikdo [volal] → {nikdo nevolal}</p>	R

verb valency (obligatory arguments)	complement number	G_Valency_complnum b_O G_Valency_complnum b_Ad	<p>In Merlin, the erroneous <i>presence or absence</i> of obligatory arguments is annotated. Free complements (Helbig: "freie Angaben") are not tagged. The tags are specified as follows:</p> <p>a) omission of a subject or obligatory object (<b>G_Valency_complnumb_O</b>) b) wrong addition of a subject or obligatory object (<b>G_Valency_complnumb_Ad</b>). This tag was used as scarcely as possible. Annotators were asked to rely on their native speaker competence to decide whether an explicit subject really is an error (annotated) or a question of style (not annotated).</p> <p>Of course, obligatory arguments may be missing because the learner gives the impression to have created an elliptic construction consciously. In those cases, the missing argument is not tagged. A redundant subject may occur in Italian and Czech. Often, the use of an explicit subject in these languages is subjective and does not necessarily represent an error. The tag was used only in the case of an obvious error clearly contradicting target language usage norms.</p> <p>LANGUAGE-SPECIFIC REMARKS GER: "Es" as correlate to an obligatory or facultative complement may be wrongly added or absent. For both, the <b>G_Valency_complnumb</b> tag is used.</p> <p>RELATED TAGS The omission of a subject or obligatory object usually leads to a reference problem. The coherence/cohesion tag (<b>C_coh_ref</b>) was then used additionally.</p>	wrong argument (usually 1 token) or whole clause including punctuation mark (if argument is missing)	<p>a) *Já vstávám v 5, [ale vstáváš v 8.] {...ale ty vstáváš v 8.} *Ich liebe {dich}. *Er hat uns nicht gesagt, ob {er} kommen will. *[Spero che possa aiutarLa.] {Spero che questo possa aiutarLa.}, *[Forse con cui si parla in chat non è quella persona che tu pensi] {Forse la persona con cui si parla in chat non è quella persona che tu pensi}" b) *Petr vstává v 6 hodin. On nesnídá, protože [on] nemá hlad.; *Sie sind sind zu spät gekommen und [sie] nicht entschuldigt. *Che lavoro [tu] fai adesso? *Secondo me [tu] hai lavorato. *Che cosa di preciso [tu] vuoi fare?, * Adesso [la mia professione] sono insegnante.</p>	R
Agreement (subject and verb)		G_Agr	<p>An agreement error in MERLIN is defined a wrong grammatical forms in the following combinations of subject and verb (incl. copulative predicates):</p> <p>a) wrong form (person, number) of the verb b) wrong form (person, number) of an auxiliary or participle c) wrong part of speech (POS) in copulative predicate (infinitive instead of adjective etc.) d) wrong form (person, number) of copula</p> <p>Of course, combinations of adjective and substantive, pronoun and substantive, numerals and substantives etc. may contain agreement errors, too. In Merlin, though, it was decided to annotate these as morphological errors (see G_Morphol tags). This way, the difficult categorization of a phenomenon as either an agreement error or a complement error was avoided.</p> <p>RELATED TAGS If the subject is not explicit, but inferable from the context, and the verb form is grammatically correct, no G_Agr tag is applied. The phenomenon is tagged as a coherence problem (TH2 &amp; EA2, <b>C_coh_ref</b>). Examples: *Secondo che tipo lavoro vuole fare? *Come stai? Che cosa fai? Ha anche molto lavoro? (In both cases the subject suggested by the context is "tu" and the speaker was</p>	wrong form (usually 1 token)	<p>1) a) *Jana [čtu], *Petr [nerozumět]; *Jana [lese], *Peter [verstehen]; *Gianni [leggo], *Chiara [capire]; *Noi [volevano] un gelato; *Tu [sapeva] questo. b) *Jana [jsi] udelala, *přišel [jsme]; *Jana [hast] gelesen, *wie [seid] gekommen; *Gianni [abbiamo] letto, *(noi) [sono] venuti, *Siamo potuti (abbiamo potuto) giocare c) *Petr je [unavit]; *Jana ist [müde werden]; *Chiara è [stancare] d) *Petr [jsou] unavený; *Jana [sind] müde; *Giovanni e Luca [siamo] stanchi</p>	R/C
reflexivity	reflexive pronoun	G_Refl_pronrefl_O G_Refl_pronrefl_Ad G_Refl_pronrefl_Ch G_Refl_pronrefl_Pos	<p>Errors in the use of reflexive pronouns in MERLIN are tagged in case of:</p> <p>a) missing pronoun (<b>G_Refl_pronrefl_O</b>) b) wrongly added reflexive pronoun (<b>G_Refl_pronrefl_Ad</b>) c) wrong choice of reflexive pronoun (also in the object position) (<b>G_Refl_pronrefl_Ch</b>) d) wrong position of the reflexive pronoun (<b>G_Refl_pronrefl_Pos</b>)</p> <p>RELATED TAGS In case of errors in reflexives in the object position, it is hard to decide whether it is an agreement error (<b>G_Agr</b>) or an error in choice of the right pronoun. In this cases we tag the error as reflexivity error.</p>	refl. pronoun; in case of missing reflexive, the verb	<p>a) *[dívám] na televizi, *ráno [maluju] {instead of: ráno se maluju}, *er [entschuldigt], *Laura und Ferdinand reden [sich]; *Michele [rivolge] à sua sorella b) *dnes [si] neučí, *vidím [se] Petra; *[mi] desidero una camera singola c) *myju [se] ruce, *myslí [se] to, *smála [si]; *[se] {si} lava ogni mattina, *[si] {ci} rivolgiamo a Lei d) Já těším na Tvou oslavu. Chtěla bych zeptat se., *[mi] non posso incontrare con tu</p>	R/T

reflexivity	possessive reflexive pronoun	G_Refl_pronreflposs	<p>This is a single-language tag that is only applied for CZECH. Czech distinguishes between non-reflexive possessive pronouns (můj, tvůj...) and reflexive possessive pronouns (svůj, svoje...). Confusion between these are annotated with <b>G_Refl_pronreflposs</b></p> <p>RELATED TAGS If there is also a form problem (*stojí před její dům instead of *svým domem), the pronoun will be tagged as agreement error (<b>G_Agr</b>) and as <b>G_Refl_pronreflposs</b></p>	wrong reflexive pronoun	*potřebuju [moji] knihu, * vidím [mého] otce	R
inexistent inflection	adjective inflection	G_Inflect_adj_inexist	<p>This tag is used if an adjective form contains errors, i.e. if the learner uses an inflected form of the adjective that does not exist in the inflectional paradigm at all. The tag includes wrong forms of comparative/ superlative, too.</p> <p>LANGUAGE-SPECIFIC REMARK GER: Beyond that, the tag is used if the learner uses the determinate paradigm instead of the indeterminate. In this case, the form may exist but it belongs to another paradigm.</p> <p>RELATED TAGS If the form exists but belongs to another case or number, the <b>G_Morphol</b> tags are used</p>	wrong adjective form (1 token)	<p>GER: *ein [blaus] Himmel {blauer}</p> <p>ITA: *una persona [pedanta] {pedante}, *un tempo [mutevolo] {mutevole}; *polli [arrosti] {polli arrosto}; *poltrone [lille] {poltrone lilla}</p> <p>CZE: v [následujícím] {následujícím} měsíci, s [cizou] {cizí} nabídkou</p>	R
inexistent inflection	noun inflection	G_Inflect_noun_inexist	<p>Generally, substantives, articles, adjectives, numerals, and pronouns count as nouns. In Merlin, we decided to separate errors in the inflection of adjectives from all other types of nouns.</p> <p>Therefore, this tag is used if the form of a substantive, article, numeral or pronoun contains an error. It only applies if the learner uses an inflected form that does not exist in the inflectional paradigm at all.</p> <p>RELATED TAGS If the form exists but simply belongs to another case or number, the <b>G_Morphol</b> tags are used. If a learner writes, e.g. *un'aiuta instead of "un aiuto" or *passeggiati instead of "passeggiate", we tag <b>G_Inflect_noun</b> and not <b>V_word/fs_nonexist</b>. The reason is that we assume that the main problem is not that the word does not exist but that the learner has chosen a wrong gender which is a form that does not exist in the paradigm of the noun. The same applies for with <b>G_Inflect_verb</b> and <b>G_Inflect_adj</b>. Furthermore, in cases like *un'aiuta vs "un aiuto", neither the article (<b>G_Art</b>) nor the apostrophe error (<b>O_Apostr</b>) are tagged. These errors depend on the gender error of the noun, while the learner was consistent in the (erroneous) form used.</p>	wrong noun form (1 token)	<p>GER: *[euche] [Fahrrade], *er gab es [mire] {mir}; * welche Rechte und [Pflichte]...</p> <p>ITA: *Con [personi] {persone}, *chiedere [un'aiuta] {un aiuto}, *[un Suo Risposto] {una Sua risposta}</p> <p>CZE: dej to [mojemu] {mému} kamarádovi, promluvit k [lidům] {lidem}, o [tiscích] {tiscích} nápadů</p>	R
inexistent inflection	verb inflection	G_Inflect_verb_inexist	<p>If the learner uses a verb form that does not exist in the paradigm of the verb, this tag is used.</p> <p>RELATED TAGS If the verb form exists but simply does not agree with the subject, that considered is an agreement error (<b>G_Agr</b>)</p>	wrong verb form (1 token)	<p>GER: *Johannes [trinks] keine Milch. *Meine Eltern [bezahlenst] das Studium.; *Ich [kanne] nicht fahren; *... meine Rechte und Pflichten zu [weißen]; *Mein Mutte [wohn] noch in Vietnam.</p> <p>ITA: *E quando [vorebbi] {vorresti} il tuo vestito nuovo?; *Io [mangirò]{mangerò} poi una mela; *il sole [scalduva] {scaldava} molto forte; *puoi [venir] anche tu</p> <p>CZE: [radovám] {raduji} se, [pozváš]{pozveš} mě na oslavu, co si [přáte] {přejete}</p>	R

wrong inflection	case	G_Morphol_case_wrong	This tag is applied if the case of a substantive, adjective or pronoun is wrong. The form chosen exists, but it belongs to another case in the inflectional paradigm. The tag concerns all types of phrases containing substantives, pronouns and adjectives. Phrases may contain attributes (e.g., "Das Buch auf dem Tisch"). Case errors within "attribute NPs" or "attribute PPs" are annotated as well.	whole phrase (including attributes if any); if the error is within an attribute --> tagspan only attribute	GER: *Diese Erfahrung wurde [mich] späte gut helfen...; *Über eine positive Antwort wurde ich [mir] sehr freuen ...; *ich wollTe [dir] Fragen...  ITA: *Lei (le) scrivo; *Come può arrivare a casa sua se te (ti) voglio venire a trovare  CZE: čte romány a [chodí na procházce], chce [navštívit babičce]	R
wrong inflection	number	G_Morphol_numb_wrong	This tag is used if the number of a substantive, pronoun, article or adjective is wrong. The form chosen exists, but it belongs to another number in the inflectional paradigm. The error may occur in all types of phrases.  LANGUAGE-SPECIFIC REMARKS ITA: Errors in the use of i/gli and il/lo are annotated with this tag, too.	whole phrase (including attributes if any); if the error is within an attribute --> tagspan only attribute	ITA: *L'autobus c'era solo 2 [volta]{volte}, *i miei [argomento] {argomenti}, *le [notizia attuale] {notizie attuali}, *restare qualche [giorni] {giorno}, *[Alle] {Alla} fine, *[la] {le} possibilità, *[il] {lo} sport, *[i] {gli} amici, * "Puoi chiamarla" instead of "Puoi chiamarle"  GER: *Ich werde [zwei Woche] dort verbringen; *[zwei uralte Frage]; *[einige Postkarte]  CZE: pracuje jako [knihovníci] {knihovník}, vybíral si mezi [možností] {možnostmi}, znám tvoje [nápad] {nápady}	R
wrong inflection	gender	G_Morphol_gend_wrong	This tag is used if a substantive, pronoun or adjective or article contains a gender error. The form chosen exists, but it belongs to another gender in the inflectional paradigm. The error may occur in all types of phrases.	whole phrase (including attributes if any); if the error is within an attribute --> tagspan only attribute	ITA: *Con riferimento [al] {alla} Sua lettera, * [I regoli] {le regole} di grammatica, *[Cara] {Caro} Giorgio, *[i miei congratulazioni] {le mie congratulazioni}, il [suo] {vostro} amico svizzero, *in [una] {un} ristorante.  GER: *Ich brauche [eine große Wagen] für die Möbel.; *Es gibt [kein großes Unterschied]; *[Sprache und Kultur seines Heimats]; *ich wünsche dir [eine gute Wochenende]  CZE: používám [tenhle tramvaj] {tuhle tramvaj}, neznám [žádnou takovou film] {žádný takový film}, to je už [můj druhý práce] {moje druhá práce}	R
wrong inflection	ambiguous	G_Morphol_ambig_wrong	There are ambiguous cases of morphological errors for which it is very hard to decide if they are an error in case, gender, or number. The form exists in the inflectional paradigm of the word, but there is more than one "right" solution.	whole phrase (including attributes if any); if the error is within an attribute --> tagspan only attribute	ITA: *[il mio profession] {la mia professione}, *[ma queste notizia che cerchi è buono]  GER: *[Nächste Monate] muss ich meine neue Arbeit beginnen (Numerus? Genus?); *Die Silvesternacht habe ich [mit meiner Kinder] verbracht.(Numerus? Kasus?); *um [einer Ort] zu besuchen... (Genus? Kasus?)  CZE: vždy se těším na tvé dopis (number or gender?)	R

verb	tense	G_Verb_tns	<p>If the learner chooses an erroneous tense, e.g. past tense instead of present tense (and vice versa), or present tense instead of future tense, this tag is used (see examples under a)). It also includes errors in the consecutio temporum (see examples under b)).</p> <p>RELATED TAGS The tag is not used for errors in verb formation (wrong person, number etc., see <b>G_verb_compl</b>) If the wrong form contains also errors in aspect, mood, voice or/and formation, use several G_verb tags on the same token.</p>	wrong verbal form (1-3 tokens)	<p>a)*včera [jdu] do kina, *zítra [studoval]; *gestern wir [kochen] gemeinsam, *nächste Woche [ging] er in den Urlaub; *ieri [va] al cinema, *la settimana prossima [sono stati] a Roma</p> <p>b) *Mi ha domandato se [ho] fretta {Mi ha domandato se avevo fretta}, *Carlo raccontò che Gianni non lo [chiamò] {Carlo raccontò che Gianni non lo aveva chiamato}, *Anna ha promesso che [passa] a prendermi {Anna ha promesso che sarebbe passata a prendermi}</p>	R
verb	voice	G_Verb_vc	<p>For confusions between the active and the passive voice, this tag is used.</p> <p>RELATED TAGS The tag is not used for errors in verb formation (wrong person, number etc., see <b>G_verb_compl</b>) If the wrong form contains also errors in aspect, mood, tense, or/and formation, use several G_verb tags on the same token.</p>	wrong verbal form (1-3 tokens)	<p>*Jan [byl dán] mně tužku; *studenti [budou napsáni] test, *Peter [wurde gezeigt] mir sein neues Buch, die Stadt [gründete] im Jahre 1234; *Giovanna mi [era data] la macchina, *il giorno [fissano] (era/è stato fissato), *nella mia città [viene cercato] personale</p>	R
verb	mood	G_Verb_md	<p>If a learner uses the imperative/conjunctive/indicative mood instead of the appropriate mood, this tag is used.</p> <p>RELATED TAGS The tag is not used for errors in verb formation (wrong person, number etc., see <b>G_verb_compl</b>) If the wrong form contains also errors in aspect, voice, tense, or/and formation, use several G_verb tags on the same token.</p>	wrong verbal form (1-3 tokens)	<p>*[Jdi] do města?, *[učila bych] to (instead of uč se to!); *er [würde gehen] gestern ins Kino (instead of ist gestern ins Kino gegangen/ging gestern...), *[Lerne] das? (instead of Lerne das!); *[Stai] bene!, Gianni [sarebbe andato] in città (instead of è andato in città)</p>	R/U
verb	aspect	G_Verb_asp	<p>This tag is applied for Czech and Italian.</p> <p>CZE: If the learner uses the imperfective instead of the perfective aspect, this tag is used. As the choice of aspect often depends on the subjective view on an action, only clear errors in use of aspect are annotated. If the context allows both aspectual forms, no annotation is done.</p> <p>ITA: If the learner uses the passato prossimo for a habitual action or the imperfetto for a finished, single action, this tag is used.</p>	wrong verbal form (1-3 tokens)	<p>CZE: pf. Instead of ipf.: *celý den [se naučil], ipf. Instead of pf. *[vařil] polévku a potom šel do kina ITA: imperfetto instead of pass.pross.: *sempre pensavo {ho sempre pensato} che voi due; *durante gli ultimi tempi aiutavo {ho aiutato}, *era {è stata} una esperienza molto interessante; pass.pross. instead of imperfetto: *l'acqua è stata {era} molto brutta, *non ho saputo {sapevo} cosa devo fare, *la stanza è stata {era} caldissima</p>	R/U

verb	verb formation	G_Verb_compl_O G_Verb_compl_Ch G_Verb_compl_Ad G_Verb_compl_Pos	This tag captures errors in the formation of complex predicates (i.e. analytical verb forms, predicates with modals and copulative predicates). In detail, G_Verb_compl is meant for: a) wrong form of the participle, wrong auxiliary (present instead of participle, infinitive instead of participle, "be" instead of "have" and viceversa, etc.) ( <b>G_Verb_compl_Ch</b> ) b) missing/extra auxiliary ( <b>G_Verb_compl_O</b> , <b>G_Verb_compl_Ad</b> ) c) errors in infinitive forms (GER: includes missing "zu" of the "erweiterter Infinitiv mit 'zu'") d) missing or redundant copula . ( <b>G_Verb_compl_O</b> , <b>G_Verb_compl_Ad</b> ) e) participle, auxiliary, copula in the wrong position ( <b>G_Verb_compl_Pos</b> ) f) problems in impersonal constructions (only for ITA and CZE)  RELATED TAGS It is important to distinguish G_Verb_compl tags from agreement errors (G_Agr) - wrong person or number are considered <b>G_Agr</b> . If a semantically inappropriate modal verb is chosen, this is a lexical error (tag: <b>V_sendenot_word</b> ), while a wrong person or number of a modal verb receives a <b>G_Agr</b> tag. Also, wrongly formed copula are tagged with a <b>G_Agr</b> tag.	erroneous form in the verbal complex; for missing verbal component --> the existing one; in case of missing copula --> noun	a) *bude [dělá], *[učit] jsem se; *er wird [lese], *ich habe [lernen]; *Luigi ha [leggere] b) *kluci [jsou] běhali *my pracovali dlouho; *sie [gerannt], *sie [haben] arbeiteten; *Michele e Luca [andati] in città, *[ho] leggevo il libro, *[siamo] potuti giocare c) *musíš [přijdeš], *začal [pracuje]; *du musst [kommst]; *Mia mamma deve [viene] subito. * Ha cominciato di [lavora], *Diese zwei Frage richtig {zu} beantworten ist nicht einfach. d) *Iva [studentka], *ve městě [má] knihovna, *Studentka [je] Iva přišla do školy; *Nico [Student], *Der Buchladen [hat] in der Stadt, *Die Studentin [ist] kam in die Schule; *Francesco [studente], *La libreria [ha] in città, *La studentessa [è] veniva a scuola. e) Dnes Karel milý je.f) f) * La città non se (si) vede ancora, *v Praze [on] stále se demonstruje	R/U
verb	main verb	G_Verb_main_O G_Verb_main_Ad	Use this tag if in a learner's sentence there is a main verb missing ( <b>G_Verb_main_O</b> ) or there is a redundant main verb ( <b>G_Verb_main_Ad</b> ).	redundant main verb; whole clause where main verb is missing	GER: *... mit großem Interesse habe ich in XY Zeitung Ihre Anzeige {gelesen}; *Ich [nehme] besuche meine Tochter.; *Ich [wurd] wäre Ihnen sehr dankbar,.... CZE: *Chlapci si nejraději hrají s auty, dívky {zbožňují} panenky. [Jdu] pozvu Tě na párty. ITA: Missing: * Penso che questo compito {sia} abbastanza difficile; un anno fa {sono stata} in Germania per una settimana; {È} una domanda molto importante	T/U
preposition		G_Prep_O G_Prep_Ad G_Prep_Ch G_Prep_Pos G_Prep_Merge G_Prep_Split	This tag is applied if: a) a preposition is missing ( <b>G_Prep_O</b> ) b) a preposition is redundant ( <b>G_Prep_Ad</b> ) c) a preposition is incorrect ( <b>G_Prep_Ch</b> ). This, for CZE, includes missing parts of complex prepositions & errors in vocalization of prepositions d) a preposition is in the wrong position ( <b>G_Prep_Pos</b> ) V) a preposition is incorrectly contracted ( <b>G_Prep_Merge</b> ) VI) a preposition is incorrectly splitted ( <b>G_Prep_Split</b> )  LANGUAGE-SPECIFIC REMARK FOR ITALIAN G_Prep_Ch is not applied if a preposition with an article is used instead of a simple one and vice versa (i.e. *Giocare al calcio -> "al" instead of "a", "su" instead of "sulla"). Here, article tags are used ( <b>G_Art_Ad</b> ; <b>G_Art_O</b> ). In the same "componential view", if an articulated preposition is wrongly added (i.e. *Mi piacerebbe frequentare sul questo corso), we use both tags G_Prep_ad and G_Art_Ad.  RELATED TAGS If a preposition is incorrectly contracted with or splitted from an article, the tags <b>G_Art_Merge</b> or <b>G_Art_Split</b> are used. Errors in the use of prepositions often lead to wrong formulaic sequences. For deciding whether to tag a G_Art or a V_form_FS, for each case it was decided whether that form could also exist in another context.	1 token; in case of missing prep. -> noun	a) *myslím [maminku] (na maminku), *dívá se [televizi]; *ich warte [Antwort], *dann warte ich [dich]; *mi da [possibilità] girare e conoscere, *una sera la [settimana] b) *bojí se [od] psa, *věří [k] učitelce, *kannst du [bei] mir helfen?, *er ist [in] zur Schule gegangen; *è stato un disastro [ad] andare al lago, *non è facile per me [di] viaggiare c) *sedl si [do] židli, *jdu [do] doktora, *[v] škole; *ich soll [am] 8.
